Green's Committee Report: Bill Barry explained that the video Jeff Heward showed at the Annual Meeting on March 26, 2026, outlined our Spring/Summer projects. Work has begun and we're ahead of schedule. The cart path on #14 has been shaped and is ready for new Celebration Bermuda sod. Additionally, work on repairing and relocating irrigation on #16 green and the surrounds is underway. Our arborist identified infected, diseased, and dangerous trees and those have been removed and the area reshaped. The green will have new irrigation and will be expanded, lowered and new bunker complexes constructed. Our first greens aeration is scheduled for May 4, 2026, and those plugs will be used to build the new green complex. A temporary green will be cut. Celebration sod will be installed by end of May.

The work on the #18 green will start once #14 & 16 are complete (weather permitting).

Pro-Shop Report: John Bolton began his report by wishing the members safe travels.

John informed the members of two local schools that will be using Riverbend Golf Course this Spring. One will have their school matches here and the other will be using the range for try-outs. He feels this is a good practice for building community relationships.

On a Happy/Sad note- Jack's last day will be April 26, 2026. He is going to work at Frenchman's Reserve where great opportunities await him. Congratulations Jack!
